

To: All Devon Hills Homeowners
From: The Board of Directors
Date: November 2, 2015
Subject: Annual Meeting, Board Positions, Google Fiber Network

The Annual Meeting which has been held in mid-November for many years has been moved to February 17, 2016. This will be a permanent change which has occurred for several reasons:

1. On occasion the annual meeting has had to be postponed due to inclement weather.
2. Because of the numerous holidays in the November/December period it is difficult for some to attend and even more difficult to find an alternate date in case of bad weather.
3. It will allow us to present our financial status in a complete calendar year rather than a partial year as in the past.
4. We believe that it will provide an opportunity to increase our attendance.

We hope that you will find the February (17th@7pm) time and the new location more convenient and we look forward to your participation. The meeting has been moved to the new library behind Bellevue Middle School.

There are 5 board positions that require an election. One is the South Highlands seat, which is currently not represented. We encourage a resident of South Highlands consider serving and to submit their name via email to the Board at boardofdirectors@devonhillshoa.com . There are 2 positions on Devon Valley Drive, 1 on Glenway Drive, and 1 on North Highlands that are up for election. Should anyone in those areas wish to offer their service please email the Board to submit your name.

Google Fiber Optics has asked permission to enter our neighborhood and lay cable for their high speed data services. We see this as a great opportunity as it will provide all of our neighbors a new internet option. You can see the work being done now on Hwy 70 and they are headed our way.
